

SHUBHAM KASHYAP

QA Engineer | Manual & API Testing

Noida, Uttar Pradesh | shubhamkashyap54321@gmail.com | +91 73514 00389

PROFESSIONAL SUMMARY

QA Engineer with hands-on experience in **Manual Testing, Functional Testing, Regression Testing, Retesting, UI Testing, Cross-Browser Testing, and API Testing**. Experienced in testing real-world web and mobile applications, designing test scenarios and test cases, identifying and tracking defects, performing API testing using Postman, and collaborating with developers and QA teams throughout the software development lifecycle. Experienced across **School Management, Learning Management, Inventory Management, POS, Restaurant, and service-based applications**. Familiar with Jira, Bugzilla, Postman, MySQL, SDLC, STLC, and Agile methodology.

CORE QA SKILLS

Testing	Manual, Functional, UI, Regression, Retesting, Smoke, Sanity, Negative, Cross-Browser, Mobile, RBAC
API Testing	Postman, REST APIs, GET, POST, PUT, DELETE, Status Code Validation, Request/Response Validation
Test Documentation	Test Scenarios, Test Cases, Test Plans, Bug Reports, Test Execution & Regression Reports
Defect Management	Jira, Bugzilla, Defect Lifecycle, Bug Retesting, Defect Verification
Database / Programming	MySQL – Basic Python – Basic
Methodologies	SDLC, STLC, Agile
Platforms	Web Applications, Android Applications

PROFESSIONAL EXPERIENCE

Kasper Infotech Pvt. Ltd.

QA and API Tester | May 2025 – Present

- Execute manual testing for web and mobile applications across multiple business domains.
- Analyse functional requirements and business logic to prepare test scenarios and test cases.
- Perform functional, UI, regression, retesting, smoke, sanity, and negative testing.
- Perform REST API testing using Postman with GET, POST, PUT, and DELETE methods.
- Validate API request parameters, response data, HTTP status codes, and business logic.
- Identify, document, and track defects using Jira throughout the defect lifecycle.
- Retest reported defects and perform regression testing after fixes and new releases.
- Verify application behaviour across different user roles and permissions.
- Collaborate with developers and QA team members for defect clarification and resolution.
- Prepare and maintain testing documentation and execution reports.

WorkLooper Consultant Pvt. Ltd.

QA / Manual Tester | Feb 2025 – Apr 2025

- Executed manual test cases for web and mobile applications.
- Created and maintained test scenarios, test cases, and defect logs.
- Performed functional, UI, regression, retesting, and negative testing.
- Identified and reported defects using bug-tracking tools.
- Verified bug fixes and performed regression testing to ensure application stability.
- Collaborated with developers and QA team members for defect clarification and resolution.
- Documented test results and supported testing activities before releases.

REAL-WORLD PROJECT EXPERIENCE

SMS – School Management System

SaaS Web Application

- Tested workflows across Admin, Teacher, Student, and Driver roles.
- Tested Attendance, Fees, Exam, Transport, Reports, and RBAC workflows.
- Performed functional, role-based access, regression, and negative testing.
- Tested API functionality and business validations.

LMS – Learning Management System

SaaS Web Application

- Performed functional testing across multiple LMS modules.
- Designed and executed test scenarios and test cases.
- Performed regression and retesting cycles.
- Tested role-based access, permissions, and defect fixes.

IMS – Inventory Management System

Web Application

- Performed functional and regression testing across IMS modules.
- Tested Admin, Manager, Employee, and role-based workflows.
- Performed REST API testing using Postman and validated responses, status codes, authentication, and authorization.
- Tested inventory, POS-related, company, user, and transaction workflows.

POS – Point of Sale System

Web Application

- Tested sales, returns, payments, customers, products, discounts, taxes, and transactions.
- Performed functional, UI, regression, and negative testing.
- Tested role-based permissions, payment and cash-drawer workflows.
- Performed API testing and validated calculations, validations, and business logic.

Restaurant Management System

Web Application

- Tested reservations, orders, customers, payments, cash drawer, assets, audit, menu, and related workflows.
- Performed functional, UI, regression, negative, and role-based testing.
- Validated business rules, calculations, date/time validations, and payment workflows.

Janta Sewa Application

Web / Mobile Application

- Performed manual testing of application workflows and user functionality.
- Created and executed test cases based on business requirements.
- Performed functional, UI, regression, and negative testing.
- Identified and reported defects and verified fixes.

Drivya RO Application

Android Mobile Application

- Performed manual testing of application workflows, UI, validations, navigation, and functionality.
- Performed functional, negative, and regression testing.
- Reported defects and verified fixes during retesting.
- Application is available on Google Play Store.

EDUCATION

Master of Computer Applications (MCA)	Pursuing – Online Mode
Bachelor of Computer Applications (BCA)	2022 – 2025 Galgotias University, Greater Noida
Intermediate	2022 CBSE Board

CERTIFICATIONS

- Certificate of Virtual Internship – Android Developer
- Certificate of Virtual Internship – RPA Developer
- NPTEL Online Certificate – Training and Development
- NPTEL Online Certificate – E-Business
- AWS Academy – Cloud Foundation Virtual Internship

KEY STRENGTHS

- Strong understanding of software testing fundamentals.
- Good analytical and problem-solving skills with attention to detail.
- Hands-on experience with real-world web and Android applications.
- Good understanding of REST API testing and defect lifecycle management.
- Ability to design effective test scenarios and test cases.
- Good collaboration with developers and QA teams.
